

I am asking that you NOT expand the LPFM service because of the way it would allow new LPFM stations to take priority over current FM translator service. I am one of hundreds of thousands of people who listen to a K-LOVE station on these FM translators. My K-LOVE station is broadcast on 88.5 FM in this area of Texas. It serves me as a resident of my local community with family-friendly programming that is wholesome and encouraging. I am one of many who have been so thankful for this station, and I listen to it all the time! We have other options for FM listening in this community, including country and western, easy listening, classical, rock, and most other kinds of music and talk stations anyone could want, but our K-LOVE station is the only one like it, and our community, which has a lot of Christians, would be much worse off without this station. There are fewer and fewer entertainment media with which we feel comfortable for all the family to hear. In the public interest, please DO NOT take away this K-LOVE station which supports wholesome values and has a positive and encouraging impact on communities all across America. DO NOT expand Low Power FM stations at the expense of current FM stations. Thank you very much for your consideration.
